

**What do you call an insurance company
that says it's working to save the planet - but
insures fossil fuel crooks
that cause our climate breakdown?**

Answer: Dave

INSURE OUR SURVIVAL

**Howden sort out insurance for our homes, our cars, even our pets.
But they are also part of Howden Insurance Group -
who are working hard to destroy all of our futures.**

**Howden Group Insurance boast about their sustainability.
While making millions from insurance
for the fossil fuel criminals digging and drilling for oil, gas and coal.
This is wrecking our climate, flooding our homes, undermining
our food supplies and threatening to kill billions.**

**Without insurance, fossil fuel companies can't take
the huge financial risks of finding and exploiting oil, gas and coal fields.
So Howden could stop them in their oily tracks
by refusing to insure them.**

WHAT CAN YOU DO?

**Find out more about how Howden - and many other UK-based insurers -
are driving climate breakdown and how to get involved
and stop the insurance industry putting profit
before our homes and safety:**

**Get news from the Insure Our Survival campaign
and discover other ways to get involved with Extinction Rebellion:**
