

Further training resources

Action Network help pages

You can browse the [Action Network Knowledge Base](#) for more guidance.

Also there are also [Action Network training sessions](#) to sign up to.

Please be aware for both of the above, some features may not be relevant or even available on the XR UK network (in particular 'Action Builder' and 'Mobile Messaging' are not features we currently pay for).

Friends of the Earth

Friends of the Earth (FoE) have produced a good number of training videos and other training documentation to help FoE groups get to grips with using Action Network.

These FoE training materials cover a wider range of Action Network's functions than the emailing functionality currently in general use by XR groups. This includes creating petitions, letter campaigns, events and forms.

Please be aware that not all this advice will be relevant to XR email lists and also that Action Network upgrade their software regularly, so some of the older videos may a little out-of-date.

An overview of the FoE Action Network training materials is on their Action Network group page here: <https://actionnetwork.org/groups/friendsoftheearth>.
