

Looking after arrested rebels

Arrest support

If you have had arrests, hopefully you were expecting them and have [Back Office](#) and [Police Station Support](#) readied.

If Back Office are working, once you know there will be no more arrests, you need to stand them down again.

You may need to call out to wider circles once the action has begun, to get PSS crew in place for the day/night/following day.

Aside from PSS make sure anyone that has been arrested gets the support they need. Wellbeing can help with this and CASP offer a range of support. Make sure they are plugged into that support but also give them extra opportunity to talk things through outside of formal debriefs.

See here for more guidance on [Post Arrest Support](#).
