What do the Production teams do?

Production & World Build focuses on logistical and hands-on work and takes care of the practical and technical sides of rebellion. In short: we amplify actions!

We make sure to provide the equipment needed to intensify any action. This involves sourcing, delivering and operating kit and training crews to work both behind the scenes and on the ground.

We consist of six main teams:

- Site Design & Build
- Sound & Power
- Logistics
- Sustenance
- Sanitation
- Waste & Accommodation

See the next pages for more detailed information on each group, checklists for running your own Action, Protest or Rebellion, and information on how to connect with or get involved in these teams.
