

XR Action Support Teams

Collaborating with Other Organisations

Our Action Support teams have extensive experience working with allied organisations.

There are many ways of working together:

- We can operate as a single support team, all wearing identical branding
- We can each retain our own branding, for example we might do this if stewarding separate sections of a march
- We can operate as independant teams, centrally coordinated

We welcome members of other organisations volunteering to join our support teams. This could either be as individuals, or we could arrange online training sessions specifically tailored to your group.

Contact us at actionsupport@extinctionrebellion.uk to discuss.
