Air Pollution

Resources for Air Pollution themed actions

Apologies - the website that the QR codes in the materials below used has stopped working. So for now just take the following as inspiration while we try to recreate the graphics and flyers.

Useful websites

- Postcode search from Friends of the Earth
- World map of air pollution sensors by Airly
- Global Action Plan
- Mums for Lungs

Street Signs

Graphics info and designs for making signs like the one below:

Flyers to edit and print

These flyers are in photoshop format - so you can add your own Local Group info. If you require support in editing these, then please contact LGsupport@extinctionrebellion.uk by email, or via our Mattermost Reception.

A5 flyers and stickers as shown below

- A5 flyer front
- A5 flyer back
- Stickers as .psd file and ready to print as .pdf file

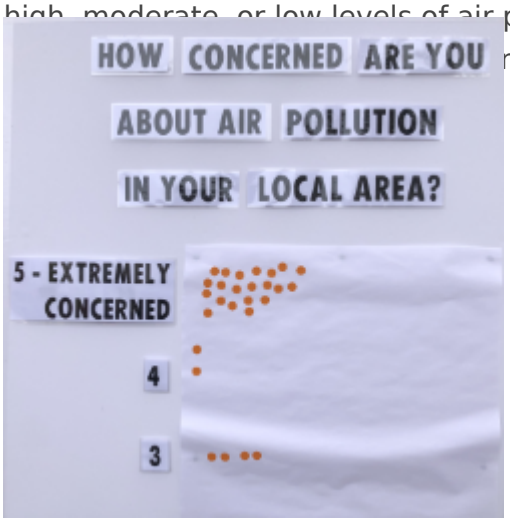

Engaging the public with survey boards

The second board has a map of the local area. Passers-by were encouraged to scan the QR code (taking them to the addresspollution.org website - note this website is currently not working), enter their address, and add a sticker to the map indicating whether where they lived had very high, high, moderate, or low levels of air pollution. As you can see, nearly all of the stickers added are [illegible]tion.

Mini-action

Using the green light (for pedestrians) over a crossing on a main road, close to the survey boards, to bring attention to the outreach and amplify the message

Useful Statistics, quotes & resources

A collection of statistics and quotes around air pollution, particularly related to health: useful statistics document (Google doc).
