

# Climate Crisis Quiz

This [interactive quiz](#) is designed to engage the public in thinking about the climate and ecological crisis and then taking action.

It's designed to be used online via social media posts, or perhaps suggesting that rebels add it to their email signatures. But you could also:

- use printed paper versions as part of outreach at in-person events.
- craft a bigger version for people to interact with.
- run it like a pub quiz with teams, either in-person or in zoom meetings.

Contact the [Crisis Quiz team](#) for help or if you would like personalised versions of the quiz with different sets of questions.
