WORK IN PROGRESS

WHAT? The Earth Vigil is made up of ordinary people from all walks of life who sit holding the Earth in mind with compassion and loving kindness. And we remind those who pass by of the climate and ecological crisis.

WHY? We are concerned for the Earth. We can all do our part in the smallest of ways: this is one way.

WHERE? Belle Vue Terrace Island, Great Malvern

WHEN? Every Saturday, 12-1pm

WHO? This is for everyone. You are welcome to join us.

BECAUSE GOOD PLANETS ARE HARD TO FIND

For millennia our planet has sustained life, in all its awesome diversity. Today, due to human activity, our climate is warming faster than we ever thought possible; ecological collapse threatens our very existence. The solutions are all possible, and yet powerful vested interests are stopping progress.

The fossil fuel economy must end.

One million species are now threatened with extinction. Coral reefs are likely to be lost by 2050. Extreme climate-related disasters (heatwaves, droughts, floods and storms), have nearly doubled in the past 20 years. The hottest eight years recorded have all been since 2015.

OUR DEMANDS

TELL THE TRUTH

All institutions must communicate the danger we are in. We must be clear about the urgent need for rapid political, social and economic change.

ACT NOW

Every part of society must act now to reduce greenhouse gas emissions to net zero and begin protecting and repairing nature immediately.

DECIDE TOGETHER

The Government must create and be led by a Citizens' Assembly on Climate and Ecological Justice.
