Washing lines

Washing lines – can work well with the Dirty Scrubbers and also on their own as an easily recognisable way of highlighting greenwashing.

As well as highlightly greenwashing, you can use **childrens clothes on washing lines**, printed with the message of your action (1 letter per item of clothing). This is a really hard hitting visual as it is immediately obvious that children are the ones who will be dealing with the worst impacts of climate change, despite having done the least to cause it.

Ensure that you have something secure to attach your washing line to. If you are bringing free standing posts ensure in advance that they will bear enough weight for the line not to sag too much.
