

Rebel for Truth - Sep 2023

Since XR first burst onto the streets we have said "Tell the truth and act as if the truth is real".

Truth is the antidote to the climate lies and the climate liars.

When you can't trust those in power, the people are the answer. We are trapped in a system that is outdated and out of touch. Citizens' Assemblies are the alternative. In a time of corruption and greed, 'reasonable' starts to look revolutionary.
