

# Introduction

## ECO JUSTICE ACTION THEME PACK

Biodiversity loss has one of the most clear connections to the climate crisis with many species either dying out or having to migrate due to their habitat being destroyed.

Ecological justice month covers the effects of climate breakdown on our natural environment, whether this be biodiversity loss, wildfires and their effect on both human and non human species or the negative impacts of factory farming.

We invite you to join us in June & September 2024 for a month of action standing up for our earth and its inhabitants as part of the [2024 Actions Strategy](#). Though the battle doesn't end there, these actions can be taken at any point by anyone.

Outlined in this pack are a few ideas and resources to help get your action planning juices flowing and give you some inspiration for actions you can do in your local area.

To achieve our goal of mass mobilisation, we need everyone, we need you.

These Ideas are only suggestions and we encourage you to think about what affects your local community and how you can tie in your existing campaigns.

# Restore Nature Now

On the 22nd June 2024 Extinction Rebellion will join many other supporting organisations including leading nature charities and environmental activist groups for the Restore Nature Now March in London as part of ecological justice month.

This will be the biggest ever gathering for nature and climate, so make sure you're not missing out.

We invite you to join us as we demand:

1. Giving a pay-rise for nature
2. Making polluters pay
3. Delivering more space for nature
4. Putting a right to a healthy environment in law
5. Ensuring fair and effective climate action

Find Out More Visit the [XR Restore Nature Now page](#) on the website for more information, including how to get involved.
