

Explaining XR

Abbreviations. Terminology. FAQs. Building a new kind of organisation means that we need new words and new definitions. This book contains helpful clarification allowing you to understand the odd shorthand terms you'll hear in XR meetings and documents, and can direct you to who to ask if it's still not clear. Acronyms, Alphabetisations, Glossaries, FAQs and other sources of information are all here!

Glossary of Terms

We know that for a newcomer to Extinction Rebellion our resources and newsletters can appear full of jargon, acronyms and nonsense. First of all, we sincerely apologise for this. Jargon is useful shorthand within a group but can be unhelpful to new rebels and so we have created this page to help!

See also the [Glossary for new rebels in the Rebel Starter Pack!](#).

Feel free to add new entries or add in terms you have come across which you do not understand. This is by no means a complete list.

Organisational Terms

- **Affinity Group** - A small group, created for an action, of rebels who are willing to take the same kinds of actions. That is, one Affinity Group may be up for dancing naked in parliament or another may be up for flyposting, but everyone within one affinity group agrees on the level of action they are interested in. Affinity groups ought to be self-contained, having their own wellbeing rebels, support rebels, media rebels etc.
- **Community Group** - A group brought together by their identity, this could be their faith, culture, occupation or really anything! Our community groups include XR Grandparents, XR Muslims, XR Boat dwellers, XR Doctors etc
- **DNA** - The things that make us XR. These include our Principles & Values, our Self-Organising System, our Ways of Working etc. Essentially our DNA brings together all the things that we, as XR, fundamentally agree on.
- **Global Support** This is a worldwide network of rebels who help XR chapters grow and this is their website [Extinction Rebellion Global](#)
- **Guardianship and Visioning (G&V)** helps rebels and groups to follow the XR UK vision, principles & values when rebelling with Extinction Rebellion.
- **The Hive** - The Hive is the widest circle in the XRUK organism. It is made up of representatives from each Nation and Region of the UK as well as some from the UK Support structure. It aims to hold XR UK's shared purpose within the global XR movement, supporting it to achieve its 3 demands in the UK.
- **Integrated Budget Group (IBG)** To distribute income raised for XRUK in line with the movement's strategy. This means responding to requests for a movement budget and to fund rebellions. The challenge is there is never enough money to go round and IBG has to see how a request aligns with our strategy by supporting 1 or more of fundraising, mobilisation (growing the movement), providing critical functionality (VLE to support NVDA, software licences, warehouse rent, rebellion equipment), engaging with cultural influencers (VIPs, celebrities, public figures) or NVDA. See also the Book [Integrated Budget Group](#).

- **Mandate** - Each role and circle within XR has a mandate, and this tells those in that role or circle what they can do and lets others know what that role or circle is responsible for. Mandates are typically written as a statement of purpose (why the role or circle exists) and a list of accountabilities (what those rebels are responsible for).
- **Self-Organising System** - Is our system of organising. It includes how we make decisions, define roles and structure ourselves. The Self-Organising System is dynamic and evolving as we learn what works and what doesn't. See [Self-Organising System](#) on the UK web site (includes a link to our constitution) and the [Building Teams](#) book.

Other Terms

- **100 Days** - A campaign for a big protest in April 2023. See the [100 Days](#) book.
- **Action Network** - An organisation that provides facilities for sending out emails to lists of subscribers, and allows people to sign up to those lists. For more information on how XR uses this go to the book [Action Network for XR](#). Software not hosted by XR, their website is actionnetwork.org.
- **Citizens' Assembly** - Citizens' Assemblies are innovative processes that can empower people, communities and entire countries to make important decisions in a way that is fair and deeply democratic. Our 3rd Demand is that Government must create and be led by the decisions of a Citizens' Assembly on climate and ecological justice. See <https://extinctionrebellion.uk/be-the-change/citizens-assembly/>. Note that those pages on the main XR UK web site supersede the old site xrcitizensassembly.uk.

About Extinction Rebellion

The main public-facing site for Extinction Rebellion in the United Kingdom is

<https://extinctionrebellion.uk/>. This has information and resources for rebels as well as the general public: look under <https://extinctionrebellion.uk/act-now/resources/>.

The global site is at <https://rebellion.global/>.

We encourage everyone in the UK to sign up to the Communications Hub, which gives you access to Mattermost (announcements and questions), forum (discussions) and cloud storage (online documents) facilities to communicate with other rebels. For security reasons, you can't just sign yourself up -- you need to contact a Tech Champion in your Local Group or Community Group. To contact a Local Group or Community Group, look at the <https://extinctionrebellion.uk/> web site.
