

Movement Survey 2024

A survey was sent out on the XRUK email list in December 2024 and a 'second chance' follow up email in early Jan 2025.

Both surveys closed on 16th Jan to allow analysis to begin.

The first part had two simple questions to ask what people were currently involved with and what they liked to be more involved with. A reply email was sent to anyone wanting more info with various options given.

Also at the end of the survey a link to a longer (10min) anonymous, ethically approved, academic survey was offered. This was aimed at understanding the experience, attitudes and barriers to participation in the movement and some more detailed questions about the participants personal experience of XR and activism in general.

Short survey results and analysis

Coming soon - likely around mid-Feb 2025

Experience and barriers study

The publication of this will take a while, due to it being more complex academic study.
