Business Cards to Order or Print

Business Cards

Little cards (the size of a business card) with a **Sign-up** QR code on one side and a **Donate** QR code on the other are a great idea because:

- They are very cheap
- They are small and easy to carry for outreachers, stewards and fundraisers. You can even keep some in your wallet at all times to give to people when XR comes up!
- They are multi-purpose and can be used for both sign ups and donations
- If people are in a hurry, they can take them away to use later
- Our XR leaflets usually only have a QR code linking to the general website, the QR codes on the business cards are more specific

Download artwork for the current XRUK business cards

These cards can be used by anyone for XRUK fundraising.

You can get some of these by contacting the fundraising team or downloading the artwork below and getting your own printed. Of course, you can also create your own artwork and QR codes and make your own cards!

- **Sign up** side of business cards (Google doc)
- **Donate** side of business cards (Google doc

Someone wants to donate, but you have no QR codes or materials...

The DONATE and JOIN OUR MAILING LIST buttons are always at the top of our website when accessed from a phone, so just ask people to search for XR UK if you do not have any cards!
