

Insure Our Future

Successful action targeting the global insurance industry is concentrated in the City of London in February 2024.

Why target Fossil Fuel Insurers?

Why Insurance is Winnable (ie. Getting 100s of Millions of tonnes of CO2 cancelled)

Save the Date: 21st Feb 2024, 7pm

Come and find out more from activists and insurance insiders. Get your questions answered, and hear the plans for actions 27th-29th Feb in London. We need you, and you can have a massive impact!

In the UK London is where we can make the biggest impact, which is why we need everyone who can to be there from 27th-29th Feb. A major chunk of the global insurance industry is concentrated in the City of London, so here we can potentially make impacts that ripple across the globe!

So if you can join us to maximise pressure at the global heart of the beast - London - please do so, even for a day, and help us get even more carbon bombs cancelled. If you can just come for one day come Wednesday 28th, but to maximise your own impact come from Tuesday to Thursday.

But if you can't get down to London don't despair, there are [dozens of actions happening across the country](#) on 1st-2nd March, (and more are being added by the day, so check the map more than once!), and Digital Rebellion has a [whole campaign that you can join in from home!](#)

How to get involved

All of the information on how to get involved in the week of insurance actions (26 Feb - 01 Mar 2024) in the City of London and across the UK:

[Key information about joining actions](#) in London and around the country, on the XRUK website.

Join the [National Telegram Chat](#) to get up to the minute information.

[Amplify this week of actions from home via social media](#) on the Digital Rebellion website.

Volunteer in one of many Action Support roles:

So a big thanks for the 120 volunteers so far spread across days and locations. We can always use more (especially in London Tue, Wed, Thu). These roles are an ideal way to be involved in an action and have a valuable purpose at events.

Details of all the Action Support crews are [here](#)

Give your availability on dates at locations for specific roles:

 - Chipping Norton
 - Oxford
 - Tunbridge Wells
 - Maidenhead
 - Croydon
 - Newcastle
 - Darlington
 - Leeds
 - Hastings
 - Colchester
 - Chelmsford
 - Reading
- Sat various times: UK-wide
 - Bristol

Messaging pack for IoF

Insurance is the Achilles heel of the global fossil fuel industry. It's what gives companies such as Shell, BP and Exxonmobil the confidence to drill as the planet burns - by covering their operations against financial losses when things go wrong.

Without insurance, major oil and gas projects would not be able to operate.

Just 20 companies insure 70% of fossil fuel projects and **a large number of these companies are based in the UK, mostly in the City of London.**

Messaging Pack contains

- links to websites and social media accounts of groups involved
- hashtags to use and follow
- ideas for messaging on banners
- design colour scheme
- information on the alliances behind the actions
- three special demands for these actions
- countdown to action social media plan

XR Insurance Week of Action Messaging Pack

Flyers

[Download flyers](#) for use in the upcoming Insure Our Future week of action.

On the link above you will find one design- "R&N flyer", which features only one-page, allowing the back side of the page to be your own local content if needs be. The other two were designed for use at the London actions (26-29th Feb), but can be altered for local use if you have someone locally who knows how to use design software.
