Rugby Final - Twickenham

Sat 14th June 2025 - 'Red Card Allianz' at the Rugby Final

Allianz Twickenham Stadium, Whitton Rd, TW2 7BA

On the 14th June at Twickenham, 82,000 rugby fans will arrive to watch the Premiership final. That's eighty-two-thousand (!!!) opportunities to build pressure on the fossil insurance industry. It'll be a fun, family-friendly action, delivering real impact through engagement, not disruption.

To maximise this opportunity, we need a great plan and LOADS of outreachers!

From simply handing out leaflets, holding banners, to more in-depth chats, everyone is invited. Even if you've never done outreach before, or are unsure of yourself, there are online and written briefings will empower you to get involved.

Get a crew together and join us:

Week of Actions - July 2025

From the 5th to 12th July - groups across the UK will target local "dirty insurers" — building the pressure for them to stop funding climate destruction.

This July, Insure Our Survival campaign are turning up the pressure on the fossil fuel insurers who are enabling climate breakdown. It's time to push harder—to cancel carbon bombs, stop ecocide, and confront climate injustice.

Whether you're ready to poster your high street or plan a bold shutdown, the [actions menu](#) provides something for every activist—whatever your experience or capacity.

Message from Insure Our Survival Campaign:

This July marks one official year of the Insure Our Survival campaign, and to celebrate in style we're calling on everyone to escalate our actions at our local dirty insurers we've already targeted and plan our first direct action at those we haven't yet put on notice. If you've been and put our demands to them already then we offer full support in training and resources to go back and pile on more pressure.

In the second week of July, we are calling on good folk across the UK to take action against their local dirty insurers, with a heavy emphasis on potential EACOP insurers and Marsh (who are filthy

EACOP's dirty broker) for those that have a choice of targets locally. From the streets to social media, we need your voices and creativity to make sure these companies know that we will resist their support of any carbon bomb, especially EACOP. We need your help to ramp up the pressure. Whether it's physical demonstrations, creative actions, or digital disruption, every action counts. Let's send a clear message: Rule out insuring EACOP, and all new Oil, Gas & Coal or be held accountable!

If they ignored your rally, how about a lobby occupation this time. Done a lobby occupation with no change or engagement from the target? Perhaps it's time for a rooftop banner drop or occupation? Could your group get someone outside every morning for a week, better 2 weeks, talking to staff arriving about their company causing the increase in local flooding and destruction of countless species worldwide

Escalating Actions

If you've already targeted an insurer and they haven't changed course, escalation is often what gets results. Here's why it works:

- We demonstrate staying power: When they see we're not going away, their resistance begins to crack. Insure Our Survival thrives on consistency—they know we'll keep returning as long as they fund destruction.
- Unpredictability changes the equation: After repeated low-level disruption, companies start asking not "Can we ride this out?" but "What's next—and how bad will it be?"
- Escalation = amplification: Bolder actions attract more media, energise other activists, and raise reputational and financial risks for the target.

We've been building momentum for a year. We've seen **major wins**—and we need more. We don't have twenty years. We need action now.

Week of Actions - Sept 2025

International Wave of Action

This year Insure Our Survival will be going even more international, with a planned series of major coordinated multi-country actions that aim to do greater damage to the reputations and profits of some of the worst offenders. UK teams can take action in concert with frontline and most affected communities alongside those in major insurers home nations and key markets in action with us on the same day against the same target.

Already Summer of Heat in the US has aligned with planned dates and we aim to get activists from many more nations involved.

So watch this space and we will notify trusted teams of targets for September as they are locked in.
