

Key Information

No insurance = no drilling and digging for oil, gas and coal.

Be part of a major new nonviolent direct action campaign targeting a weak spot in the Fossil Fuel Death Star – their insurers. **Get ready for a massive week of nationwide actions starting October 28**

How it all started

Following on from the Global Week of Actions earlier this year called '[Insure Our Future](#)', XRUK took further action in July when UK insurers were greeted by Extinction Rebellion at their [annual awards bash at the Royal Albert Hall](#).

Insure Our Survival have plans to continue a sustained, escalating campaign. It's time to stop insuring new fossil fuels, or face increasing direct action!

If you'd like to join the fun and take action against your local dirty insurers, then read more to find out how you can participate in direct action, in your local areas, from home, and in the City of London, to bring an end to insuring destructive Fossil Fuel projects for good!

Open Calls

Wednesday 18th September 7-8pm - [register here](#)

Tuesday 24th September 7-8pm - [register here](#)

Join one of these Zoom calls to find out how to be part of the action and what to expect, come and hear about:

- Why direct action targeting the insurance sector is effective
- What we can disclose of the plan so far
- How to get involved & what support is available ...and get answers to your questions! With closed captions.

Join the campaign

Join the **Insure our Survival Telegram chat**

If your group would like advice on how to get involved, or any support or if you would like to be involved in higher risk actions contact **insureoursurvival@extinctionrebellion.uk**
