Our Principles and Values

Anyone who follows these core principles and values can take action in the name of Extinction Rebellion.

A more detailed explanation of each of the Principles and Values here.

> **1. We have a shared vision of change:** creating a world that is fit for the next seven generations to live in.

> **2. We set our mission on what is necessary:** mobilising 3.5% of the population to achieve system change – such as “momentum-driven organising” to achieve this. .

> **3. We need a regenerative culture:** creating a culture which is healthy, resilient and adaptable.

> **4. We openly challenge ourselves and this toxic system:** leaving our comfort zones to take action for change.

> **5. We value reflecting and learning:** following a cycle of action, reflection, learning, and planning for more action. Learning from other movements and contexts as well as our own experiences.

> **6. We welcome everyone and every part of everyone:** working actively to create safer and more accessible spaces.

> **7. We actively mitigate power:** breaking down hierarchies of power for more equitable participation.

> **8. We avoid blaming and shaming:** we live in a toxic system, but no one individual is to blame.

> **9. We are a nonviolent network:** using nonviolent strategy and tactics as the most effective way to bring about change.

> **10. We are based on autonomy and decentralisation:** we collectively create the structures we need to challenge power.
