Community Assembly on Saturday... and beyond the weekend!

A must-not-miss, in-person Community Assembly, Saturday 12th September 2-5pm where we will all discuss the question:

“How might we restore our failing water systems to secure a long-term future for all people, life and habitats?”

Water touches everything, including our very security... Everyone has a particular perspective from pollution to poverty... It's all connected. Our speakers to help inform discussions will be announced very soon. (We are very excited!)

Post-assembly

To maintain and build momentum after Love & Rage, this Autumn we'll be using the power of '[Polis](#)', an amazing participatory and inclusive tool that can help bring about system change.

Polis will allow for a wider, online discussion; it will be open for a month, between **Monday 19th October - Thursday 19th November**.

Please look out for our promotional campaign to share with your networks in the coming weeks to bring thousands into this conversation.
