

# Applying for an @extinctionrebellion.uk email account

This page explains which groups are eligible for XR email addresses, and how groups can apply.

## Is your group eligible?

The following types of group may be issued with @extinctionrebellion.uk email addresses :

- region/nation groups
- local groups
- region/nation working groups
- local working groups only if they are demonstrably large, active and well organised - otherwise they should use a 'plus address' folder on their parent group address (see below)
- UK level working groups

Addresses cannot be issued to:

- individuals
- affinity groups
- any groups lacking a corresponding record on the Communications Hub (see below)

## Is your group on the 'Communications Hub'?

Addresses can only be issued to groups whose existence has been recorded on the [XR UK Communications Hub](#) since we<sup>1</sup> use the Hub to verify requests. If your group is not yet listed you should ask your 'Group Admin' or the 'Group Admin' of your parent circle<sup>3</sup> to help with this.

## Are you personally on the 'Communications Hub'?

The applicant should be personally listed on the Hub as holding a core role<sup>2</sup> in the group requesting an email. If you're not yet listed you should ask your 'Group Admin' or the 'Group Admin' of your parent circle<sup>3</sup> to help with this (more [here](#)).

# How to apply

If you're happy that you/your group meet the above criteria please make your request with a message to [this chat channel](#) (on XR's Mattermost).

If you need an address urgently but are unable to immediately fulfil all the above criteria, please ask for advice in the above channel anyway: we may be able to find a workaround.

## Footnotes:

1. Who is 'we'? Your-group@extinctionrebellion.uk email addresses are administered by the [Digital Discussions Applications Team](#)
2. A 'core role' would be any of 'External Co-ordinator', 'Internal Co-ordinator' or 'Group Admin'.
3. 'Parent circle': For local groups, the 'parent circle' would be your regional group
