

Rebel Toolkit

Searching the Rebel Toolkit

The **Rebel Toolkit** has a search function available from the box at the top of every page, or, on narrow screens, from the menu. You can search in two simple ways, the example below shows you the difference in the results:

Search : **nonviolent direct action**

[View result here](#) - this picks up part of the RT where any of those words appear.

Search : "**nonviolent direct action**"

[[View result here](#)]

Contributing to the Rebel Toolkit

The Rebel Toolkit design, structure and style is managed by the Rebel Toolkit team, but the content is a collaborative piece of work. Many XRUK circles maintain and update their own content. Also any individual, community or local group could submit content to be woven into the appropriate book. [More information can be found here.](#)
