

# Rebel Toolkit

## Searching the Rebel Toolkit

Use Rebel Toolkit search or an Internet search engine.

The **Rebel Toolkit** has a search function available from the box at the top of every page, or, on narrow screens, from the menu. Documentation is at

<https://www.bookstackapp.com/docs/user/searching/>.

The search is not as clever as that provided by the major **Internet search engines**. As an alternative, try going to your favourite search engine (Google, Bing etc), or the search box on your web browser, and including `site:rebeltoolkit.extinctionrebellion.uk` along with your search terms. This restricts the results to only show pages from the Rebel Toolkit. More detailed instructions: [Bing](#), [Google](#).

## Contributing to the Rebel Toolkit

The Rebel Toolkit design, structure and style is managed by the Rebel Toolkit team, but the content is a collaborative piece of work. Many XRUK circles maintain and update their own content. Also any individual, community or local group could submit content to be woven into the appropriate book. [More information can be found here](#).
