POLLUTED RIVERS · WILDFIRES · HEATWAVES · MELTING ICE**

 **extinction rebellion**

Extinction Rebellion (XR) is calling for an upgrade to democracy for the sake of climate and nature.

Citizens' assemblies are used around the world to clear away party-political noise and give ordinary people the power to decide on and work on solutions together.

ARE YOU WORRIED ABOUT THE CLIMATE AND NATURE CRISIS?

**FLOODS
DROUGHT
FIRES
HEATWAVES**

**CROP FAILURE
INSECT DECLINE
MELTING ARCTIC
POLLUTED RIVERS**

Things are getting worse faster than we expected.

Those in power aren't acting quickly enough.

We need change that is decided fairly and transparently.

We need a Citizens' Assembly on Climate and Ecological Justice.

**Together we are stronger,
and can create the change that is needed.**

TOGETHER WE ARE POWERFUL

Our climate is deteriorating faster than predicted, and those in power are not listening to experts.

The Government, media and fossil fuel companies are all complicit in the lies that allow business as usual.

They profit while our bills rise, and want you to think they are doing enough while life on our planet dies.

Activists are jailed, rather than the villains who pump sewage into our seas and rivers and pollution into our air.

Extinction Rebellion wants power to be in the hands of the people. **We need to decide together.** That's why we demand a Citizens' Assembly on Climate and Ecological Justice.

If we are to have any hope of coping with the climate emergency, we have to move beyond the politics that have so far held us back, into dialogue and towards unity and action.

People power can change the course of history.
