

TURN UP THE HEAT

You're not imagining it. You're living it.

Heatwaves, wildfires, parched fields. It's not 'just weather', they're signs of a world heating up. And it's getting worse, fast.

But you are not powerless. People across the UK are stepping up. You can too.

Let's turn up the heat on those in power.

People are joining Extinction Rebellion every week. Community is cool!

Find your local group and take action together.
