Volunteer to be a Rebel Ringer

Rebel Ringing is a simple phone call to another rebel, using a script, to invite them to connect with the Rebellion in some way.

Will a little bit of training, lots of support and a friendly team to work with - with flexibility to when you contribute your time.

It's a lovely way for rebels to keep in touch with the wider movement via real human interaction. It is impactful and empowering for you as a caller, for the person you call and for the movement as a whole when ringing campaigns happen at scale.

Rebel Ringing is crucial to mobilisation, and it's proven to work.
