Make your Group Visible

Does the rest of the movement know your group exists?

- If you're a local group, it's *really* important your group is on the Local Group map and the 'pathway', as this way new joiners can find you, get in touch, and get looped into your meetings and actions. If you need support setting up a joining form and mailing list, read this page.

- If you're a community group, make sure you're listed in the Community Group section on this page, with accurate contact info.

- XR Organism: ensuring your Group is on The Hub, and your contact information is up to date, makes it easier for other groups to find you. Contact the Tech Team for support adding or updating Hub groups.

- Share what you're up to! Join the Live Action Content chat on Telegram to share with the rest of the movement your best photos and videos.
