Save

This form lets you change your name (this means your username. The Login is your 'handle' on Mattermost), preferred pronouns, secret codeword, phone number and external contact.

- Changing anything on this form just changes the information we hold on the Hub, not on Mattermost, UK Cloud or UK Forums. It also lets you change who can see your email and/or phone number.
- If you want to change/update your Login (handle) or Email **and** for these to change on the Hub and across the other services, see below.

You can set up Two Factor Authentication so that you have to confirm your login with an Authenticator app, like google Authenticator, before you can login. To do this just tick the box, save the screen, and the next screen will help you set this up. You can always turn it off again by unticking the box.

Normally, people who wish to contact you about XR business will send you a message on Mattermost. It is therefore important that you check Mattermost regularly, particularly if you hold a role in a group, as otherwise you may miss these messages. If you really can't do that, then please put some other means of contacting you in the **External Contact** box, so people can get in touch. Note that this contact information is available to everyone on the Hub, i.e. bona fide verified XR members, not the general public.

Changing/Updating Login and Email across all our services

- There is an edit button (pencil symbol) next to **Login** and **Email**.
- Clicking the button takes you to a form to change your login details or email.
- These forms require you to enter your **Mattermost** password, as the Hub does not store your password, and it needs your Mattermost password to update your username or email address on Mattermost.
- A few people have different Hub and Mattermost passwords. If that is the case, you will be asked to confirm that they are different.
- Once you save the form, the Hub will try to change everything on all services - Hub, Mattermost, UK Cloud and UK Forums - to be the same.

If it is unable to do so, it will tell you which ones went wrong. The main reasons for this happening are:

- You put in the wrong Mattermost password
- Someone else is already using the login name or email you chose- Mattermost is global, so there are lots of users on Mattermost who aren't on the Hub.

If any errors occur, you can go back to My Settings and try different details.

Note: It is not possible to update a name (username) on UK Cloud. If you change your name the Hub deletes your old user record, creates a new one and then joins it to the same groups as the former. This is usually fine, but if someone shared a file or folder with you by name or you created personal calendars, decks or forms, they will be lost.

Change my password

This is reached from Settings. Here, you can change your password on the Hub only. To change your password elsewhere, you need to use the facilities on each other service.

Deactivate me

This is reached from Settings. Here, you can deactivate your login – e.g. if you have been arrested and/or your phone has been seized. You won't be able to log in to the Hub, Forums, Cloud or Mattermost until you get your Group Admin to reactivate you.

Delete me

This is the option to use if you want to be removed from the Hub, Mattermost, Forums and Cloud altogether.

Logout

This lets you log off, e.g. if you are using a shared computer and don't want the next person to be able to access your Hub account. Note this only logs you out of the Hub, and not from the individual services which you may have open in other tabs or apps.

Adding additional contact info to groups on the Hub

On the Hub, you can add public contact details so that users can stay connected with your group, including a "Public Contact Email", Facebook Groups, Twitter accounts, etc. Most of the information is public and so published to anyone on the Internet, but if people want to keep information like Signal, Telegram or WhatsApp channels viewable to Hub members only, they should add it in **External Contact Info** which can be found at the bottom of the edit screen.

To add this contact information, you have to be a Group Admin of the relevant group, as otherwise the relevant box won't appear. On the Hub, select the group you are looking to add contact info to and click **Edit Contact Info** to bring up the editing screen. You can add public contact details on this screen.

About This Group

Public Contact Email ?

Map Link ?

Facebook Page ?

Facebook Group ?

Twitter ?

Instagram ?

Every Hub Group, including local groups, that doesn't check Mattermost regularly should also add external contact info to their Group Info/Contact tab on the Hub. This is so that people on the Hub can contact the group. In the **External Contact info** box at the bottom of the page you can add contact info such as WhatsApp and Signal details.

Hub Only Info ?

Available to anyone logged into the Hub. For contacts outside the Hub (Signal, Telegram, etc.).

External Contact Info ?
