

The Trilogy

A TRILOGY is a set of three distinct works that are connected and may be seen either as a single work or as three individual acts of storytelling. A Better World is Possible - A Creative Vision as we move from 2025-2026

- The Door : WINTER
- The Awakening : SPRING
- Love and Rage : SUMMER
- DO (NOT) DISTURB - door hanger action

The Door : WINTER

THE DOOR – WINTER : A TRILOGY FOR 2026

ACT ONE

The closing of the year, "one door closes another door opens".

As the year turns we first look back at what has happened, then things change, the door opens. We learn from the old and begin anew.

Looking Back at 2025

1.5C is dead, despite our best efforts our demands have not been met, those in power have failed us.

Looking Forward to 2026

Extinction Rebellion must **ACT NOW!** We WILL **DO IT OURSELVES** and get ready!

Get Involved!

We are many, they are few, **A BETTER WORLD IS POSSIBLE!** You are a rebel **DO IT YOURSELF** but here are some creative and performative action ideas for the XRUK WINTER campaign.

Join [THE DOOR on Telegram](#) to share ideas and resources across all our rebel communities.

'Do (not) disturb' action

This action can be replicated for a target location near you.

[Action info and how to order the door hangers here](#)

- Join a Trilogy Action- view on the [Actions Map](#) or [Calendar](#)

Remember to upload any actions or events you plan to the Movement Calendar/Actions Map using [this form](#).

The Awakening : SPRING

What door will you open?

Pushing up through cold but fertile ground, the snowdrop, is a symbol of hope, rebirth and growth.

We are the 89%, we won't wait for permission to build the new world. We will do it ourselves.

Together we build our groups and communities to turn the world the right way up. We encourage people to join us in a DIY 'Revolution'!

Consider Easter / Ostara, this is a time of planning, planting, preparation and adapting for all that lies ahead.

Volunteer roles for this part of the Trilogy are advertised here on the [XRUK volunteer website](#).

Love and Rage : SUMMER

12th, 13th, 14th September - London

With fire in our hearts, we will spark and sustain a spirit of creative, nonviolent rebellion to disrupt and pressure the perpetrators of climate and ecological injustice and drive systemic change through equal participation in power.

A long hot weekend of workshops and discussions with a creative finale, join and stay as long as you're able.

DO (NOT) DISTURB - door hanger action

As we continue looking forward to a better future in 2026, it can't be business as usual. The same people plan to continue making the same deals, behind the same closed doors — while the climate and nature crisis deepens.

So we're disturbing them in our trademark nonviolent, cheeky style. The DO (NOT) DISTURB action is simple and repeatable everywhere.

Print a hanger. Find a door. Hang it where power hides. Parliament. Councils. Courts. Corporations. Offices. Banks.

Who will you disturb in your area, with your local groups? Turn any door into a message — a reminder that silence, delay and backroom deals are no longer acceptable in an emergency.

Do it once — or keep going back.

Order or print a sign on coloured paper to hang on any relevant doors in your locality.

- Order the A3 size (see photos above) via the [Outreach Order form](#) (then skip to step 2)
- DIY printing - download and print the [door hanger template](#) on coloured card.
- Want to print using coloured ink? - here are [pink](#) and [green](#) versions too.

Step 1

Print the templates supplied on coloured or white card, cut out. The hanger is sizeable. Print on A4, A3 or create an oversized hanger on cardboard for bigger impact. Note: to ensure good legibility of the red cross on 'NOT' do not print on red background.

Step 2

Choose your target and think about your messaging. At the location, if it isn't possible to hang, stick to the door with sticky pad or similar.

Step 3

Post a photo on your social media channels. Include a short message about ways the 'door' of the person/place you've targeted could tell the truth, act now, how their work/power can help reduce the impacts of the climate and nature emergency.
