

The Awakening : SPRING

What door will you open?

Pushing up through cold but fertile ground, the snowdrop, is a symbol of hope, rebirth and growth.

We are the 89%, we won't wait for permission to build the new world. We will do it ourselves.

Together we build our groups and communities to turn the world the right way up. We encourage people to join us in a DIY 'Revolution'!

Consider Easter / Ostara, this is a time of planning, planting, preparation and adapting for all that lies ahead.

Volunteer roles for this part of the Trilogy are advertised here on the [XRUK volunteer website](#).
