

Introduction

ECO JUSTICE ACTION THEME PACK

Biodiversity loss has one of the most clear connections to the climate crisis with many species either dying out or having to migrate due to their habitat being destroyed.

Ecological justice month covers the effects of climate breakdown on our natural environment, whether this be biodiversity loss, wildfires and their effect on both human and non human species or the negative impacts of factory farming.

Outlined in this pack are a few ideas and resources to help get your action planning juices flowing and give you some inspiration for actions you can do in your local area.

To achieve our goal of mass mobilisation, we need everyone, we need you.

These Ideas are only suggestions and we encourage you to think about what affects your local community and how you can tie in your existing campaigns.
